EMMANUEL L. MOISE
SUPERVISORY PATENT EXAMINER

Allowable Subject Matter

1. This action is in response to the communication dated May 3, 2006 with the terminal disclaimer.
2. Claims 1-37 are allowed.

The following is an examiner's statement of reasons for allowance:

The present invention is directed to a system and method for storing and retrieving program material for subsequent replay. Each independent claim (claims 1, 16, 23-25) identifies the uniquely distinct steps of "encrypting the encrypted program material according to a second encryption key", "encrypting the second encryption key according to a third encryption key to produce a fourth encryption key" and "storing the further encrypted program material and control data and the fourth encryption key in the storage device". The above recorded steps refer to encrypting the encrypted program material using a second key such as copy protection (CP) key, this second key is encrypted according to a third encryption key such as box key to create a fourth encryption key such as encryption CP key and storing the doubly encrypted program material, the control data and the fourth encryption key in the storage device of the receiver. In order to successfully replay media programs, it requires the special fourth encryption key, the control data and the doubly encrypted program material. The prior arts of Maillard et al. (6,466,671), Saito (EP 1122910 A1) and Lee et al. (5,790,783) (see previous office actions) fail to anticipate or render the above limitations obvious.

The prior arts of Son et al. (6,681,326) and Colligan et al. (6,415,031) disclose multiple layer encryption process (i.e. triple-DES encryption) where the video content is

encrypted three times, however they fail to anticipate or render the fourth encryption key, the control data and the encrypted program material to successfully replay the media programs.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Minh Dieu Nguyen whose telephone number is 571-272-3873.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Emmanuel Moise can be reached on 571-272-3865. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.
